

Grades K-2 Options

Cutting, Weaving/Knotting:

Practice cutting strips of strips of magazines, cereal boxes, plastic bags (colorful) or paper. Cut straight, zig zag, curved, etc.

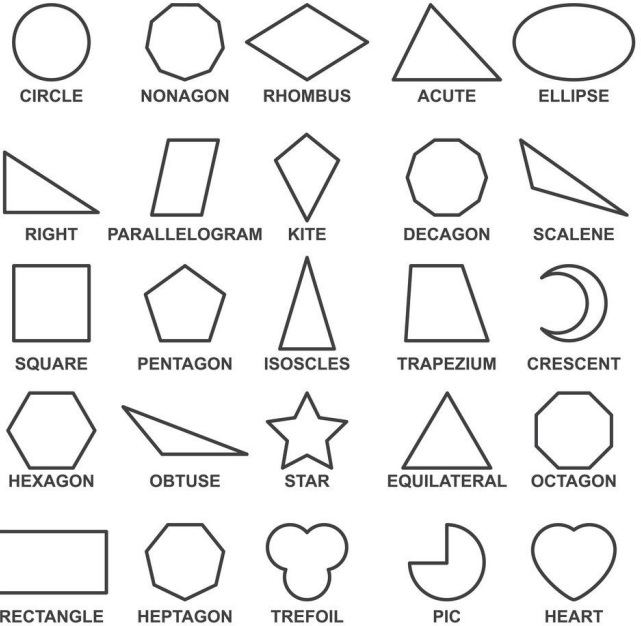

Play and explore what you can do with the strips. What happens if you weave them over and under? Can you tie a knot? Can you braid? What

could you weave or fold into? A Fence? A box? A Chair? Stair railing?

Watch this cool video about [Weaving Plastic Bags!](https://www.creativereusecommunity.com/activities) :

Drawing:

Practice drawing as many geometric shapes as you can.

Can you use your shapes to create an animal? A city? A face? A flower? Use your imagination! Can you draw something using only ONE shape for the entire picture?

Grades 3-5 Options

Cutting and Weaving: Cut strips of magazines, cereal boxes, plastic bags or paper into different strips. Using the under-over technique can you weave something that holds itself together? Create a color scheme or pattern that represents some part of YOU!

Drawing:

Practice drawing as many geometric and organic shapes as you can. Now, experiment different ways to turn them into forms. Use those forms to create a scene. Can you draw something using only ONE shape for the entire picture?
